

Special Issue

Artificial Intelligence and Smart Technologies for Sustainable Development Goals

Message from the Guest Editors

This Special Issue aims to collect high-quality research activities/products (original research articles, reviews and case studies are welcome) on artificial intelligence and smart technology advancements for achieving the Sustainable Development Goals. Topics of interest include, but are not limited to: The potential and applications of AI and smart technologies to help achieve the SDGs; Addressing and evaluating negative impacts of AI and smart technologies on sustainable development; Developments in AI regarding climate, renewable energies, efficient energy use, health, agriculture, smart buildings, and urban settlements; Ethical considerations in the use of AI and smart technologies for sustainable development, and in addressing conflicting goals; Policy making and guidelines favoring sustainable, accountable, and trustworthy usage of AI.

Guest Editors

Dr. Pierrick Bruneau

Dr. Gianluca Scaccianoce

Dr. Laura Cirrincione

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
