

Special Issue

Sustainable Economy–Energy–Environment Nexus System

Message from the Guest Editors

Exploring the coordination of the energy–economy–environment system, objectively and comprehensively revealing the interaction law among them, and further clarifying the resulting regional development differences will generate important theoretical and practical promotion for the sustainable and coordinated development of the energy–economy–environment system. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Coupling mechanism of the provincial energy–economy–environment system;
- Evaluation of the coordination degree of the provincial energy–economy–environment system;
- Construction of the comprehensive evaluation index system of the provincial energy–economy–environment system;
- Influencing factors of the provincial energy–economy–environment system.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
