

Special Issue

Blockchain for Sustainable Business Management: Innovations and Applications

Message from the Guest Editors

Scope: The intersection of blockchain technology and sustainable business management is an emerging area of interest in academia and industry. This Special Issue seeks to explore the potential of blockchain technology to enhance sustainable business practices, improve transparency, and foster ethical decision making. We invite high-quality, original research papers that offer theoretical, empirical, and practical insights into the integration of blockchain technology with sustainable business management. The scope of this Special Issue includes, but is not limited to, the following topics:

- Blockchain in circular economy;
- Sustainable finance and blockchain;
- Blockchain for supply chain transparency;
- Blockchain for ethical business practices;
- Blockchain and renewable energy;
- Blockchain and sustainable development goals (SDGs);
- Technological innovations and blockchain.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
