

Special Issue

Interdisciplinary Education for the Promotion of Sustainable Urban Development

Message from the Guest Editors

Sustainability is a construct based on three basic pillars: social, economic and environmental. Education is currently proposed as one of the fundamental tools to form a responsible, critical, participative and conscious citizenry that can face the current sustainability crisis.

Urban settlements are one of the main scenarios in which such citizenship must be formed. In this Special Issue, Sustainable Development Goal 11, "Sustainable Cities and Communities", will play a special role as it seeks to make cities and human settlements inclusive, safe, resilient and sustainable. With this in mind, this Special Issue will address these aspects from an educational and interdisciplinary approach, welcoming papers related to the right to the city, the inclusive city, participation and sustainable governance in the city, eco-social and urban literacy, social and environmental equity, etc.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
