Special Issue

Sustainable Agro-Food Productions: Water Economics and Consumers Behaviour

Message from the Guest Editor

The purpose of this Special Issue is to bring together articles that analyze both water management at farm level and consumers' considerations and acceptability toward sustainable agro-food products (with low water use) by enriching the existent literature. Moreover, a deeper understanding of both farm behavior and consumer preferences could also provide managerial implications by allowing entrepreneurs to apply effective strategies both to improve water management at farm level and to facilitate sustainable agro-food consumption by people. Therefore, given the importance of this Special Issue, we invite researchers to contribute original research articles and review articles. Possible topics include (but are not limited to) the following:

- Sustainability of agricultural systems
- Economic valuation of water resources
- Water management
- Water consumption
- Farms behavior
- Decision-making
- Water and food
- Knowledge, beliefs, perceptions and acceptability of consumers toward sustainable agro-food production
- Consumer behavior

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
