AI- and IoT-Driven Solutions for Industrial Sustainability and Smart Manufacturing

Message from the Guest Editors

This Special Issue aims to gather high-quality contributions that explore the intersection between advanced digital technologies and industrial sustainability. We welcome original research articles, case studies, and comprehensive reviews that address the design, development, and deployment of AI- and IoT-based solutions for sustainable manufacturing, logistics, and industrial operations.

Key topics include, but are not limited to, the following:

- industrial sustainability
- sustainable manufacturing
- sustainable supply chain management
- artificial Intelligence
- internet of things
- energy optimization
- predictive maintenance
- resource efficiency
- smart decision-making
