

Special Issue

Sustainable Tourism Destination Development

Message from the Guest Editor

In recent decades, sustainable tourism development has become a key prerequisite for tourism development in most destinations. The aim of the Special Issue is to gather important reflections that help to reconsider the idea of sustainable tourism development that is too often taken for granted, but of which the implications are not always fully understood or accepted. Some relevant themes include the following:

- Sustainable tourism and novel ways to conceptualize it;
- Novel and more appropriate ways of measuring (un)sustainable tourism development;
- Sustainable tourism development in destinations of coastal, cultural, urban, or natural tourism;
- Impact analysis and sustainability of tourism;
- Undertourism as a form of unsustainable tourism development;
- Overtourism as a form of unsustainable tourism development;
- Sustainable business models in tourism;
- Modern tourism development strategies for sustainability of tourism;
- Tourism policies supporting sustainable tourism development.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
