

Special Issue

Sustainable Structural Design and Risk Management

Message from the Guest Editors

This Special Issue of *Sustainability* will address and consolidate new research findings regarding sustainable structural design as a combination of new design principles, new materials, and new technologies to improve their performance and overall efficacy in servicing their beneficiaries. In light of these recent developments, this Special Issue invites original submissions and review articles covering some of the recent advances in sustainable structural design practices, as well as the assessment of potential risk from theoretical, experimental, or numerical perspectives. Topics may include, but are not limited to:

- Case studies and field observations;
- Numerical modelling;
- Material behavior—experimental or numerical studies;
- Innovative sustainable structures;
- Innovative sustainable materials;
- Eco-friendly materials;
- Sustainable construction practices;
- Constitutive modelling;
- Life-cycle assessment for sustainable materials;
- Sustainable materials in manufacturing applications.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
