

## Special Issue

# Municipal Solid Waste Management Regulation, Circularity and Urban Sustainability

### Message from the Guest Editor

This Special Issue will explore the challenges, strategies, and innovations in municipal solid waste (MSW) management within the context of circular and sustainable cities. Globally, cities generate over 2 billion tonnes of MSW each year, a figure expected to rise by nearly 70% by 2050. Managing this growing waste stream is crucial for achieving the Sustainable Development Goals, especially SDG 11 (Sustainable Cities and Communities) and SDG 12 (Responsible Consumption and Production). Effective MSW management is vital for protecting the environment, ensuring public health, and maintaining functional and livable urban spaces.

### Guest Editor

Prof. Dr. Corrado Io Storto

Department of Industrial Engineering, University of Naples Federico II,  
80125 Naples, Italy

### Deadline for manuscript submissions

30 November 2026

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
