

Special Issue

From Mind to Market: How Artificial Intelligence Reshapes Sustainable Business and Education

Message from the Guest Editors

This Special Issue invites interdisciplinary contributions that examine how AI reshapes in sustainable business and education. We welcome empirical and theoretical research, perspective papers, and review articles. Research areas may include (but are not limited to) the following:

- AI-driven sustainable business models and innovation pathways;
- Digital and intelligent transformation of enterprises to enhance sustainability performance;
- AI-driven tools for measuring, forecasting, and managing corporate sustainability performance;
- Digital transformation frameworks integrating AI to support sustainable operations and green competitiveness;
- Human–AI collaboration models that enhance sustainability-oriented decision-making and innovation capacity;
- AI-enhanced teaching, learning, and assessment approaches for sustainability education;
- AI-enhanced pedagogical models for sustainability education;
- AI-driven sustainable curriculum design;
- AI-enabled experiential and immersive learning;
- Case studies on AI integration in sustainable learning platforms.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
