

Special Issue

Towards an Ecological Economics of Sustainability: From the Perspective of Environmental Regulation Policies and Pollutant Emissions Governance

Message from the Guest Editors

The aim of this Special Issue is to provide recent advances in the field of environmental regulation policies and pollutant emissions governance. Regarding issues related to environmental regulation policies and pollutant emissions governance, the topics for the Special Issue include but are not limited to the following. First, how can we accurately estimate and forecast the current situation and future trend in energy consumption, resulting in carbon emissions or other pollutant emissions in some countries or regions? Second, what are the impacts of environmental regulation policies on pollutant emissions governance? Third, how can we accurately estimate the potential and cost of pollutant emissions reduction in each region on the basis of clarifying the imputation of responsibilities for reducing pollutant emissions? Finally, for relevant stakeholders, how can they make full use of environmental regulation policies to lessen pollutant emissions in order to achieve regional emissions reduction targets?

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
