

## Special Issue

# Statistical Process Control in Sustainable Industries

### Message from the Guest Editors

The industrial sector is undeniably one of the world's largest emitters of greenhouse gases. This also has an impact on current climate change, which has resulted in numerous changes in social and economic structures around the world. The Special Issue aims to present the most recent interdisciplinary research on quality control systems, reliability, and sustainable issues for improving environmental quality and ensuring a better future for the planet. Improved quality control in industries would assist organizations in evaluating business operations and increasing efficiency levels in order to reduce waste and pollution in the industry. This SI invites submission topics including, but not limited to, the following: statistical process control in sustainable industries; statistical process control methods; integration of quality control systems and the concept of sustainability; reliability analysis; green ICT; energy consumption and green economy; sustainable industry effect on the economy; environmental quality and health issues.

### Guest Editors

Prof. Dr. Su-Fen Yang

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
