

Special Issue

Smart Cities with Innovative Solutions in Sustainable Urban Future

Message from the Guest Editors

It has become more important than ever to develop innovative and sustainable solutions to overcome global challenges such as rapid urbanization, climate change, and resource scarcity. The Special Issue "Smart Cities with Innovative Solutions in Sustainable Urban Future" aims to explore how smart city technologies and innovative approaches can increase cities' sustainability and improve the quality of life. In this Special Issue, academics, researchers, and practitioners will have the opportunity to discuss the latest developments in urban transformation by sharing innovative strategies and solutions that are vital for the future of smart cities. This Special Issue will focus on how intelligent technologies and strategies can be utilized to create sustainable urban futures. As cities face increasing challenges related to urbanization, resource management, and sustainability, the role of innovative technologies becomes crucial in developing smart, efficient, and resilient urban environments. We welcome original research articles, case studies, and reviews that contribute to the understanding and development of smart applications and digital transformation in urban sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
