Innovative Pathways for Sustainable, Resilient Cities and a Greener Planet: The 12th World Sustainability Forum (WSF 2026)

Message from the Guest Editors

In a time of rapid climate change, increasingly frequent extreme weather events, and growing resource constraints, the need for integrated, scalable solutions has never been greater. WSF-12 will bring together global leaders, researchers and innovators to bridge science, policy, and society, fostering integrated solutions and collaborative partnerships that accelerate the transition from vision to action for a resilient and sustainable future. The forum will highlight the critical role of innovation and cross-sector partnerships in accelerating this transition. This Special Issue will comprise a selection of submissions to the 12th World Sustainability Forum, which is to be held in Hong Kong, China from 21 to 24 August 2026. The submissions selected will undergo the standard review process of the journal and will adhere to the journal's guidelines. This Special Issue welcomes research and review contributions, demonstrative case studies, management solutions, and policy perspectives.
