

Special Issue

Climate Change, Biodiversity and Sustainability

Message from the Guest Editor

The Special Issue “Climate Change, Biodiversity and Sustainability” focuses on exploring the dynamic interconnections between climate change, biodiversity and sustainable development practices. This Issue aims to provide a platform for interdisciplinary research that analyses interactions between climate change and biodiversity but also examines innovative strategies, tools, policies and frameworks to mitigate climate impacts while promoting environmental sustainability. The Issue also provides a platform for research that examines sustainable development beyond SDGs. It seeks to address critical challenges in defining, quantifying and operationalizing climate change and biodiversity interactions, and how such interactions support sustainable development, through socio-economic, scientific, and integrated approaches. We welcome submissions on topics including but not limited to:

- climate change
- environmental sustainability
- sustainable development
- climate resilience
- biodiversity, sustainability tools
- environmental policy
- integrated approaches
- socio-economic impacts
- sustainable practices
- climate adaptation strategies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
