

## Special Issue

# Towards Sustainable Urban Transport System

### Message from the Guest Editors

This Special Issue addresses the critical need for innovative solutions in urban mobility, aiming to reduce environmental impact, enhance efficiency, and improve social equity and, given the pressing challenges of climate change, urbanization, and the need for sustainable development. It highlights the urgency of addressing pollution, traffic congestion, and accessibility issues through interdisciplinary research and collaboration, setting a platform for scholars and practitioners to contribute towards sustainable, resilient, and inclusive urban futures. In this Special Issue, original research articles and reviews are welcome, and research areas may include, but are not limited to, the following: -Innovations in Electric and Hybrid Vehicles; -Smart Mobility and Transportation Systems; -Mobility as a Service (MaaS); -Policy and Planning for Sustainable Urban Transport; -Active Transportation and Urban Design; -Public Transport Revitalization; -Impact of Urban Transport on Climate Change; -Socioeconomic Aspects of Sustainable Transport We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
