

Special Issue

Advances in Energy Economics, Energy Policy and Sustainability Transition

Message from the Guest Editor

We are pleased to invite contributions to a Special Issue titled "Advances in Energy Economics, Energy Policy and Sustainability Transition". As the world grapples with the urgent challenges posed by climate change and the need for sustainable development, the transition toward greener energy systems is more critical than ever. This Special Issue seeks to explore the intersection of energy economics and policy with sustainable energy transitions, aiming to provide new insights into how these domains can support global sustainability goals. We welcome submissions that address a range of topics related to this theme, including but not limited to renewable energy integration, energy market dynamics, the economic impacts of energy policies, energy efficiency improvements, and policy frameworks that support sustainable energy development. In addition, contributions that examine the social, economic, and environmental dimensions of energy transitions, as well as the role of emerging technologies in transforming energy systems, are highly encouraged.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
