

Special Issue

Innovations in Agricultural and Rural Development in a Changing World

Message from the Guest Editor

The present Special Issue seeks to gather contributions on the social, technological, and managerial innovations relevant to the agri-food sector. Theoretical and empirical papers that clearly indicate their importance and propose solutions for increasing the viability of agri-food production are welcome. Research covering both developing and developed countries is expected. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Social innovations in the agri-food sector;
- Supply chain innovations;
- Assessment of innovations in sustainability;
- Technological innovations and their effects;
- Impact assessment of the innovations in the agri-food sector;
- Platforms for promoting innovations in the agri-food sector;
- A sharing economy and network economy for agri-food innovations;
- Innovative agri-food products and sustainability.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
