Special Issue

Green Microbiology: Advancing Sustainability through Microbial Innovations

Message from the Guest Editors

This Special Issue aims to showcase the latest advancements, research findings, and innovative applications in green microbiology, highlighting its role in advancing sustainability. By delving into the diverse range of topics within green microbiology, we can deepen our understanding of the contributions that microbes can make to sustainability and promote the integration of microbial-based solutions with various domains.

For this Special Issue, original research articles and reviews are welcomed. Research areas may include (but are not limited to) the following:

Green microbiology;

Microbial biodegradation and bioremediation;
Microbes as biofertilizers and plant growth promoters;
Microbial technologies for waste management;
Microbes in renewable energy production;
Microbes and sustainable water management.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
