

Special Issue

Supply Chain Management in a Sustainable Business Environment

Message from the Guest Editors

The scope of this special issue is to explore the intricate dynamics and emerging challenges within supply chain management (SCM) against the backdrop of sustainability imperatives. This special issue seeks to advance scholarly research and practical insights into the intersection of supply chain management and sustainability, addressing the growing imperative for businesses to operate in environmentally and socially responsible ways. Topics of interest for publication in this Special Issue include, but are not limited to, the following:

- Resilience and Risk Management in Sustainable Supply Chains
- Circular Economy and Waste Reduction
- Business Process Management for Sustainability
- Pressures and Incentives for Sustainable Supply Chain Management
- Supplier Management and Collaboration
- Ethical Sourcing, Fair Trade Initiatives, and Labor Practices
- AI in Enhancing Supply Chain Management Processes
- Supply Chain Transparency and Traceability
- Green Logistics and Transportation Optimization
- Regulatory Compliance and Sustainable Supply Chain Governance

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
