# **Special Issue**

# Intelligent Agricultural Machinery and Sustainable Agricultural Systems

# Message from the Guest Editors

The emergence of intelligent agricultural machinery marks a new stage in the development of modern agriculture, one characterized by digitization, automation, and intelligence. The implementation of such technologies can achieve efficient, precise, and automated agricultural production, thereby saving labor, materials, and costs, reducing agricultural production costs and promoting the sustainable development of the agricultural system. We welcome researchers to submit original research articles and reviews to this Special Issue. Research areas may include (but are not limited to) the following: agricultural machinery; precision agriculture and smart farming systems; simulation; sensors and other advanced technology in agricultural production. Keywords

- smart agriculture
- agricultural machinery
- discrete element method
- finite element method
- auto-control
- soil
- agricultural sustainability
- combine harvester
- CFD-DEM
- MBD-DEM

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
