Special Issue

Digital Solutions for Promoting a Circular Economy and Sustainability

Message from the Guest Editors

In this Special Issue, entitled "Digital Solutions for Promoting a Circular Economy and Sustainability", original research articles and reviews are welcome. Research areas may include, but are not limited to, digital solutions and emerging technologies (e.g., IoT or blockchain) for:

- Business process re-engineering toward greater social and environmental sustainability;
- Business process re-engineering toward a circular economy and traceability;
- Intra- and inter-organizational business process integration;
- Traceability in value and supply chains;
- Promoting sustainability and a circular economy in any business sector (textile and clothing industry, car industry, building, energy, agriculture, food supply chains, marketing, etc.);
- Engaging business partners, at any level of the value chain, to increase environmental sustainability and participate in a circular economy;
- Engaging end customers to increase environmental sustainability and participate in a circular economy by using new types of consumer-targeted apps (e.g., using gamification techniques).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
