

Special Issue

Smart Technologies for Sustainable Development: Technologies and Applications

Message from the Guest Editor

Achieving the goals of sustainable development requires the application of technological solutions that not only enhance efficiency and competitiveness but also ensure long-term environmental and social responsibility. This Special Issue aims to explore the role of smart technologies in sustainable development, focusing on how emerging technologies—such as artificial intelligence, digital process control, data-driven decision support, and Industry 4.0 systems—can contribute to the optimization of economic and administrative processes. The issue fits within the multidisciplinary scope of *Sustainability*, emphasizing the interconnection between technological, economic, and social dimensions of sustainability. Original research articles and comprehensive reviews are welcome. Research areas may include, but are not limited to, the following topics: – Smart technologies and process optimization – Digitalization and data-driven public administration – Sustainable industrial and logistics systems – Artificial intelligence and decision support systems – Smart cities and green innovation I look forward to receiving your valuable contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
