Special Issue

Technology-Enhanced and Al-Enhanced Learning for Sustainable Education: Innovations and Pathways

Message from the Guest Editor

This Special Issue seeks to delve into the transformative power of technology-enhanced and artificial intelligence (AI)-enhanced learning within the ambit of sustainable education. The enactment of sustainable education as a practice that should be environmentally mindful. economically viable, and socially just is gaining momentum. Yet, the integration of emerging technology and AI within educational frameworks introduces complex challenges. These encompass ethical and equity issues, the need for universal access, the tangible outcomes on learning efficiency and effectiveness, and the capability to scale and adapt these innovations across diverse educational landscapes. Furthermore, ensuring that such technological advancements, especially those driven by AI, are in sync with the SDGs requires careful consideration. This issue explores solutions to these challenges by showcasing innovative approaches and strategies that harness technology and artificial intelligence. Our goal is to create learning environments that support sustainability, resilience, and high-quality digital ecosystems, ultimately promoting sustainable education.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
