Special Issue

Soil and Water Pollution: Causes, Effects and Control

Message from the Guest Editors

This Issue focuses on the advances of soil and water pollution research, including their causes, pollution mechanisms, environmental effects and sustainable development strategies, in order to determine the environmental problems we face at present and to promote the sustainable development of the Earth's surface. The suggested themes covered in this Special Issue include (but are not limited to):

- Pollution characteristics of soil and water within different geological media and their migration and transformation processes;
- Causes of organic and inorganic pollutants and their environmental behavior;
- Management and remediation of pollution problems in different water and soil environments
- Evaluation of the impact of soil and water pollution on human beings, environment and ecology;
- Control of soil and water environment problems for sustainable development.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
