

Special Issue

Impact of Heavy Metals on the Sustainable Environment

Message from the Guest Editors

This Special Issue is a collection of papers that aims to explore a wide range of topics on the impact of heavy metals in the sustainable environment, including (but not limited to) the following: (1) An evaluation of heavy metals' mobility in the environment. (2) Heavy metal pollution and health risks. (3) Risk assessment of heavy metals in the air, water, plants and related soils. (4) Environmental sustainability and the prevention of heavy metal pollution. (5) Advances in heavy metal remediation: methods, tools and technology. (6) Monitoring and the impact of assessment approaches for heavy metals. (7) Statistical and environmental modelling of heavy metal pollution. (8) Heavy metals' impact on the circular economy. (9) Cross-cutting aspects and sustainability. We are pleased to invite you to contribute your relevant manuscripts to this Special Issue. Both original research papers and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
