

Special Issue

Digital Technologies to Foster Business Model Innovation for Circular Economy

Message from the Guest Editors

We encourage submissions of both theoretical and practical contributions. Topics of interest include, but are not limited to:

- Organizational and managerial challenges to develop digital circular business models;
- Classification or taxonomies of digital circular business models;
- Criticalities and benefits of DTs adoption in the CE context;
- Coordination and collaboration models for digital circular economy;
- Digital circular business models to achieve Sustainable Development Goals (SDGs);
- Digital circular business models to foster EU Industry 5.0;
- Digital circular business models to foster industrial symbiosis;
- Digital circular business models that leverage on blockchain;
- Digital circular business models to foster the development of sustainable innovations;
- Environmental and social impact of digital circular business models;
- Frameworks and tools to assess the environmental and social impact of digital circular business models.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
