

Special Issue

Corporate Environmental Performance and Disclosure: Implications for Sustainability—Second Edition

Message from the Guest Editors

We are pleased to announce a call for papers for the Special Issue "Corporate Environmental Performance and Disclosure: Implications for Sustainability—Second Edition," aiming to deepen understanding of how corporate environmental performance and disclosure contribute to sustainability. Scholars and practitioners are invited to submit original research on this important topic. ESG research has gained significant attention, with corporate environmental performance and disclosure playing a key role in shaping sustainability and attracting green finance. As businesses face growing environmental challenges, understanding these practices is vital for sustainable development. This Special Issue highlights the scientific foundation and welcomes interdisciplinary perspectives from environmental science, economics, finance, and policy. Topics include, but are not limited to:

- Corporate environmental disclosure, performance, and carbon emissions;
- Environmental regulations, policies, and corporate practices;
- Impact of corporate carbon disclosure on financial performance;
- Technology, innovation, and sustainability reporting effectiveness;
- Carbon disclosure, verification, and climate finance;

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
