

Special Issue

Sustainability in Natural Hazards Mitigation and Landslide Research: 2nd Edition

Message from the Guest Editor

This Special Issue seeks contributions that cover varied topics related to sustainability in natural hazard mitigation and landslide research. Original research articles and reviews are welcome:

- Sustainable approaches to landslide risk assessment and mitigation strategies;
- Socio-economic and environmental impacts of landslides and their mitigation measures;
- Nature-based solutions for sustainable landslide management and erosion control measures;
- Community engagement and participation in sustainable landslide management strategies;
- Innovative technologies for sustainable slope stabilization and erosion control measures;
- Geomorphological and geoecological evaluation of landslides for sustainable environmental management.

By emphasizing sustainability in natural hazard mitigation and landslide research, this Special Issue will contribute to building a sustainable environment and resilient communities and protecting lives and infrastructure. We invite researchers and practitioners to submit their work, showcasing the integration of sustainability principles in addressing the challenges posed by natural hazards, particularly landslides.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
