Special Issue

Sustainable Water Resources Management in the 21st Century: Challenges and Opportunities

Message from the Guest Editors

This Special Issue focuses on the latest research and current thinking within the field of SWRM, identifying how developed and developing societies might draw from a wealth of opportunities to use SWRM to help improve water infrastructure decision making. Drawing on this knowledge base will help to assess whether and how water resource management can be made more sustainable, improving the decisions being made for people who live in these regions. In this Special Issue, original research articles and reviews are welcome. Research areas may include, but are not limited to, the following:

- Assessment frameworks for sustainable water resource management;
- Sustainable water infrastructure provision for the 21st century;
- Decision-making for water supply;
- Sustainable water resource management (SWRM) for the 21st century;
- Achieving net-zero in the water industry.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
