

Special Issue

Progress in Sustainable Wind and Hydro Power Systems

Message from the Guest Editors

This Special Issue aims to gather new research results in the field of wind and hydropower systems, covering a broad range of topics including, but not limited to:

- Wind and hydro energy potential and forecasting;
- Innovative design and optimization of wind and hydropower systems;
- Modeling and numerical simulation of wind and hydropower systems;
- Intelligent control of wind and hydropower systems;
- Efficiency of wind and hydro energy conversion;
- Reliability and maintenance of wind and hydropower systems;
- Energy management.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
