Special Issue

Green Engineering and Sustainable Nano Manufacturing

Message from the Guest Editor

This Special Issue 'Green Engineering and Sustainable Nano Manufacturing' collates research papers focused on novel topics related to green and sustainable nano manufacturing technologies. It aims to explore the intersection of nano manufacturing and sustainable practices, and provide a platform for in-depth discussions, whilst also serving as a catalyst for innovation in this field. We invite submissions from scholars, researchers, and practitioners who share a common interest in furthering the concept of sustainable manufacturing via integrating cutting-edge technologies and design processes such as AI, Lean Six Sigma, Design for Six Sigma and TRIZ.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
