

Special Issue

Environmental, Social and Governance (ESG) for Sustainable Transportation in Sustainable Cities

Message from the Guest Editors

During the COVID-19 pandemic, general urban populations experienced relative calmness and enjoyed improved environmental quality induced by limited mobility in cities. Consequently, transport regulatory agencies and transport operators are now socially and politically pressured to maintain this perceived improvement in quality of life despite the return to pre-pandemic economic and social activities. Adding to this is the fact that transport users have also now become accustomed to being protected against mobility safety and health risks. This life-changing experience has given rise to heightened expectations formed by a new paradigm of thinking among the population that sustainable transportation goes beyond the realm of protecting the environment and ensuring socially inclusive mobility, but now also includes high-quality, risk-free mobility solutions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
