Sustainable Water Pollution Control: Bioremediation and Biological Solutions

Message from the Guest Editors

Water pollution is a major environmental concern and public health threat globally. The Special Issue “Sustainable Water Pollution Control: Bioremediation and Biological Solutions” addresses this issue using biological treatment methods and bioremediation technologies. This Special Issue covers recent research and technologies that use biological resources to improve water quality and the environment for the benefit of sustainable development. Especially, biological processes such as microbial bioremediation, phytoremediation, and algae-based treatment, etc., will be covered. Also, this Special Issue addresses emerging bioengineering techniques for the sustainable removal of contaminants from various aquatic environments. To handle this topic, research articles, review articles, and short communications are all welcomed for this Special Issue.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
