

Special Issue

Environment and Sustainable Economic Growth, 2nd Edition

Message from the Guest Editor

This Special Issue, Environment and Sustainable Economic Growth, covers the empirical and theoretical concepts in environment and sustainable economic development. It will include up-to-date research on sustainable economic development, the influence of economic activities on pollution in general, as well as government and energy policies and consumption that influence environmental degradation. It will also cover waste and recycling management, circular economy, and how they impact environmental sustainability. This Special Issue is focused on the connection among economic growth and sustainable development, involving the environmental, social, and economic aspects of sustainable economic development. Moreover, it will cover the utilization of global case studies, the rise of digital technologies, interdisciplinary perspectives. This Special Issue will deliver an inclusive account of sustainable development and the economics of environmental protection research that focuses on the environmental, geographical, economic, evolutionary and socialecological environment.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
