Special Issue

Monitoring and Management of Water Resources and Environmental Pollutants in Water Areas

Message from the Guest Editors

This Special Issue will try to link water quality, pollutant diversity arising from both point and non-point sources, water security, water quality monitoring and analyses, and modelling considering the climate change effects on water resources both on quality and quantity and, finally integrating water-energy-food nexus. Public interference-related studies on water quality issues, and public participation experiences in developing strategies for better management will also be covered in this special issue. Suggested Themes: Multidisciplinary research on water resources management practices; Studies and research on problems of transboundary waters;

Environmental pollutants including priority substances and specific pollutants;

Linking pollutants with different land-based sources of pollutants;

Monitoring pollutants and implications for minimizing the adverse effects of various pollutants; Identification and management of agricultural pollutants;

Policy implementation and legal framework; Funding opportunities for coping with pollutants.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
