Special Issue

Advances in STEAM Education Research and Practice: Towards Sustainable Development

Message from the Guest Editors

This Special Issue aims to provide a forum for sharing research findings, ideas, and perspectives on this fast-growing field of STEM education research and practice towards Sustainable Development. Recommended topics include, but are not restricted to, the following:

- Teaching across subject boundaries.
- Studying and supporting STEM teachers, their practices and learning, and school changes.
- Researching students' learning in STEM.
- Primary and secondary teachers' adaptive expertise in interdisciplinary math and science.
- STEM practices and STEM partnerships.
- Girls in STEM education.
- Promoting critical and creative thinking, reasoning, and learning in STEM.
- Sustainable learning: Students' engagement with STEM subjects.
- Multimodal languages and learning in STEM.
- Contemporary research methodologies in STEM.
- Developing educational innovations for STEM education in rapidly changing digital technology environments.
- Authentic science and mathematics in schools.
- Integrating computational thinking in STEM education.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
