

Special Issue

Agriculture Bioresource Utilization Technology

Message from the Guest Editor

Agriculture Bioresource Utilization Technology publishes original articles, review articles, case studies and short communications focusing on the fundamentals, applications and management of agricultural biomass resources. This issue will bridge multiple disciplines—including biotechnology, chemical engineering, environmental science, agronomy, and policy studies—to advance integrated solutions for biomass valorization, from fundamental science to scalable technologies. The journal's aim is to promote knowledge in all the related areas of agricultural biomass resource utilization, biological waste treatment, bioenergy, biotransformation and bioresource systems analysis, and processing and utilization in a sustainable approach. Topics include:

- Bioprocesses and bioproducts: biocatalysis, biotransformation and fermentations.
- Biomass and feedstocks utilization: bioconversion of agricultural or industrial residues.
- Environmental protection: valorization waste treatment.
- Food, agricultural and marine biotechnology.
- Biotechnology utilization the biomass in sustainable.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
