

Special Issue

Advanced Studies of Soil Organic Matter and the Application of Sustainable Soil Management Practices

Message from the Guest Editors

Soil organic matter (SOM) is the most important soil component that ensures optimal soil physical and chemical properties and its high agroecological potential. The aim of this Special Issue is to reveal how different practices of soil use in agriculture and the use of organic fertilizers within them contribute to increasing the amount of SOM in the soil and improving its quality. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: soil organic carbon, soil organic matter, qualitative substance of humus, humic acids, influence of tillage on SOM, organic fertilizing, and the restoration of eroded soils. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
