

Special Issue

Sustainable Cities: Urban Form, Spatial Structure and Ecological Integration

Message from the Guest Editor

The aim of this Special Issue is to advance our current state of knowledge about the *physical, social, and cognitive spatial-organizational elements* of those built environments where humans and nature can thrive in a reciprocally resilient manner. In this Special Issue, research areas may include (but are not limited to) the following:

- New forms and structures at the building, neighborhood, or city level;
- Redefining and seamlessly integrating the vertical dimension of cities;
- Spatial networks of self-sufficient regenerative urban habitats;
- Biomimicry, circularity, and nature-based solutions in urban space;
- The intersection of walkability, climate resilience, and ecosystems;
- Historical and future evolution, including long-term existential resilience;
- Information, communication, and knowledge flows in and about urban space;
- Semiotics, posthumanism, and the meaning of sustainable place and spatiality;
- Implications of artificial intelligence and robotics for spatial form and structure.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
