

Special Issue

Sustainable Food Management in the Era of Climate Change

Message from the Guest Editors

The Special Issue “Sustainable Food Management in the Era of Climate Change” is focused on the urgent need for food security at all stages of supply chain under the pressure of the emerging risks of global warming. The long-term changes in temperature are already affecting many sectors, with agriculture, fishery, livestock production and therefore the food and beverage industry being among the first. At the same time, the rapid world population and the upcoming food crisis make sustainable food management a vital priority at the local, national and international levels.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
