

## Special Issue

# Global Energy Economics and Implications of Energy-Related Policies: 2nd Edition

### Message from the Guest Editor

This Special Edition hopes to collect studies that will help to understand the situation of the current energy policy in various countries and how they are striving to shift toward renewable energy as well as analyze energy markets to reveal their present conditions. This Special Issue also invites diverse topics related to global energy economics and the implications of energy-related policies. Below are some of the potential topics that are related to the focus of this Special Issue:

- Global/regional fossil fuel energy markets;
- Global/regional renewable energy markets;
- Electric vehicle adoption;
- Energy policy and climate change;
- Energy efficiency development;
- Energy policy in developed and developing nations;
- Energy policy in energy security;
- Global/regional policies to reduce energy poverty;
- Global/regional policies for combating the effects of COVID-19 on the energy sector.
- Keywords
  - energy economics
  - resource economics
  - energy policy
  - fossil fuel
  - renewable energy
  - climate change
  - energy security
  - energy poverty
  - energy transition
  - energy efficiency

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
