

## Special Issue

# Cleaner Production, Responsible Consumption, Circular Economy, and Sustainable Development

### Message from the Guest Editors

For this Special Issue, research areas may include (but are not limited to) the following:

- Cleaner production;
- Clean technology;
- Sustainable design and innovation;
- Sustainable engineering;
- Sustainable products, services, and product–service systems;
- Sustainable business models;
- Sustainable supply chain management and innovation;
- Sustainable and ethical fashion and textiles;
- Lifecycle analysis and other environmental assessments;
- Lifecycle management;
- System-scale sustainability assessment;
- Techno-economic feasibility assessment of environmentally benign solutions;
- Corporate social responsibility and producer responsibility;
- Responsible and ethical consumption;
- Sustainable behaviour and lifestyles;
- Circular economy;
- Circular design;
- Circular business models and supply chains (and reverse logistics);
- Circular economy policies and governance;
- Regenerative practices;
- Green transitions;
- Sustainable development;
- Sustainable development goals;
- Education for sustainable development;
- Sustainable cities and communities;
- Upcycling;
- Climate change;
- Net zero.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
