

Special Issue

Research on Municipal Wastewater and Rural Domestic Sewage Treatment and Utilization of Solid Waste Resources

Message from the Guest Editors

This Special Issue, "Research on Municipal Wastewater and Rural Domestic Sewage Treatment and the Utilization of Solid Waste Resources", aims to collect original research articles and reviews on municipal wastewater and rural domestic sewage treatment, and on the application of new techniques that favor sustainable wastewater treatment. Moreover, we welcome contributions from different perspectives, such as sustainability and materials science, that propose solutions for the disposal of solid wastes to promote the utilization of solid waste resources. Moreover, we welcome contributions related to the separation and purification of water, air and solids. Research areas may include (but are not limited to) the following: Municipal wastewater; Rural domestic sewage; Advanced oxidation; Ion exchange; Adsorption; Separation; Purification; Resource utilization; Flotation; Coagulation.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
