

## Special Issue

# Sustainable Energy Development and Energy Economics in the Context of Climate Change

### Message from the Guest Editor

The aim of this Special Issue is to collect theoretical and practical analyses of sustainable energy development and energy economics in the context of climate change for different actors (individuals, workers, firms, regions, countries, etc.). It aims to understand the importance of clean energy solutions to fight against climate change. This Special Issue also welcomes contributions at the methodological level that present the different aspects of sustainable energy development and energy economics in the context of climate change. It is also open to case studies (policies at the country level, management at the firm level, local policies, etc.). Potential topics may include, but are not limited to, the following:

- Energy economics;
- Sustainable energy and climate change;
- Climate change and sustainability;
- Energy and environment sustainability;
- Mitigation of climate and energy;
- Economic analysis of renewable energy deployment strategies;
- Policy instruments for promoting sustainable energy transition;
- Techno-economic assessment of energy storage technologies;
- Market mechanisms for carbon pricing and emissions trading.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
