

## Special Issue

# Application of Advanced Technology in Cultural Heritage Preservation

### Message from the Guest Editors

The aim of this Special Issue is to show technologies related to cultural heritage in the way it is used to show, preserve, characterize and add value to concepts such as cultural heritage. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Cultural heritage preservation technologies;
- Digital technologies for sustainability;
- Photonic restoration;
- Light and damage;
- Hyperspectral image acquisition and processing;
- Light-based technique characterization (optical microscopy, FTIR, Raman, X-ray, etc.);
- Color and visual implications.

We look forward to receiving your contributions.

---

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
