

## Special Issue

# Economic Transformations, Renewable Energy, and Sustainable Development

### Message from the Guest Editors

This Special Issue aims to cover the advancements in state-of-the-art green economic transformations, as well as sustainable concepts, such as, but not limited to:

- The innovative development of national economies, accounting for sustainability challenges;
- The sustainable development under the conditions of Industries 4.0 and 5.0;
- Green transportation and green industries;
- A sustainable technological basis and new materials;
- Resource and technological challenges under the conditions of Industries 3.0 and 4.0;
- Green energy development and related economic transformations;
- Disruptive technologies and sustainable agricultural production;
- Sustainable development strategies;
- Renewable energy for sustainable development;
- Decision-making and decision support systems;
- Synergetic effects and environmental conflicts caused by economic transformations;
- The self-organization of economic and natural systems for sustainability.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
