Benefit Corporations – Diffusion, Societal Impact, Challenges, and Best Practices

Message from the Guest Editors

This Special Issue intends to shed light on: (i) the real environmental and social impact of such companies and their potential to change our development model; (ii) the differences in the existing legislation and possible legal, organizational and managerial barriers to the diffusion of the benefit corporation model; (iii) challenges encountered by benefit corporations, and processes and best practices carried out to address them; (iv) standards, approaches and tools that are useful in supporting stakeholder engagement, impact assessment and sustainability reporting by benefit corporations.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
