

## Special Issue

# Sustainable Construction Management Operations and Construction Engineering

### Message from the Guest Editor

In construction engineering, we can identify well-defined phases that, if correctly studied, contribute to the optimization of an executive project. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Design strategies that impact the operational implementation of a construction;
- New materials or innovative uses of materials that can be used in construction;
- Design optimization analysis of construction and assembly phases;
- Development of production lines that allow savings in the use of key materials and resources linked;
- Simplified construction and site management;
- Improvement of the resources on site;
- Use of new control methodologies in the operational management of construction;
- Traceability and reuse of materials;
- Efficiency and structural monitoring.

I look forward to receiving your contributions.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
