

Special Issue

Emerging Technologies in Silicon Solar Cells for Sustainable Energy Systems

Message from the Guest Editors

The aim of this Special Issue is to encourage researchers and practitioners to share, exchange, and communicate their original, high-quality articles in the field of new and emerging silicon solar cell technologies to improve cell efficiency and cost reduction and ensure their sustainability. This Special Issue will cover a wide range of topics including, but not limited to, the following:

- Innovative design and optimization of silicon based solar cells;
- Efficiency of solar energy conversion;
- Modeling and numerical simulation of silicon solar cells;
- Energy management and intelligent control of PV modules;
- Cutting-edge technologies in silicon for solar cell production;
- New theories, methods, and techniques to increase silicon solar cell efficiency;
- The aging of silicon solar cells;
- Silicon sustainable PV systems.

Guest Editors

Prof. Dr. Valeriy Skryshevsky

Educational Scientific Institute of High Technologies, Taras Shevchenko National University of Kyiv, 64 Volodymyrska, 01033 Kyiv, Ukraine

Prof. Dr. Anatoliy Evtukh

V.E. Lashkaryov Institute of Semiconductor Physics NAS of Ukraine, 41 Nauki Avenue, 03028 Kyiv, Ukraine

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
